i do not know
that i can memorize
the sixteen precepts

try as i might to live them

the hands & eyes are everywhere in compassion
the hands & eyes are everywhere
or so i hear

it is a music as sunlight hidden behind the grey cloud cover

"... your practice affects the entire earth and the entire sky ...
Although not noticed by others or by yourself, it is so." <332>

now that our friend is dead
i do not know if we will return to the island to say & play it ever again

way leads on to way
& who can say

so much that the eyes & hands will never see or touch

"Your continuous practice creates the circle of the way." <332>
