

6/1/16

the empty form is really not

i suppose i am writing & it is not the sun & not a sphere neither
i first came upon the clearing while sitting & attending to my breathing

it has nothing of the narrative about it

cog said the old codger

cogitate

think it over

"For example, how about the words, 'I have attained the way simultaneously with sentient beings on the great earth'?" <216>

isn't this where you left off
